

Allies Bending Boche Line Everywhere

GERMANS ADMIT WITHDRAWAL IN FLANDERS AND PICARDY

British Troops Press Forward Toward Enemy Base With Evidences Growing That Enemy is Rapidly Seeking Cover Behind Battered Hindenburg Line. 2,000 Prisoners Taken by Haig's Forces in Twenty-Four Hours.

FRENCH CAVALRY FORCING ENEMY BACK

(By United Press)

Berlin (via London) Sept. 4.—German withdrawal in Flanders and Picardy was announced by the Berlin war office today.

"Astride the Lys," the statement said, "in a continuous rabble the enemy worked forward as far as the line of Wulverghem and Nieppe."

"Monday night we withdrew our troops in a line from Arleux and Manencourt undisturbed by the enemy. Between the Ailette and the Aisne French troops in co-operation with the Americans and Italians renewed their attacks.

"They were repulsed in many instances after bitter hand to hand fighting."

Germans Are Retiring Further

With the British Army in France, Sept. 4.—Evidences are piling up that the Germans are retiring from Wytchaete and Meffings ridges.

German machine guns are industriously carrying out the intention of the enemy to hold the canal line, temporarily at least, staying off the thrust against Cambrai.

The British have taken another three thousand prisoners.

General Byng's southwest of Cambrai encountered heavy shell fire.

Leicell is held by the British. Types is reported to be likewise held although the German machine fire is just beyond that place.

Tablole Copse, scene of desperate attacks of the last Cambrai fighting is in British hands. Airplanes have destroyed canal crossings. Four crossings are still intact, however.

Byng's army took 2,000 prisoners and 22 field guns in the 24 hours ending last night.

North of Lens the enemy attacked desperately driving the British back. The British came back with another assault and soon re-established their posts.

Mangin's Army Continues

Paris, Sept. 4.—Toward Guiseard, five miles north of Noyon. French cavalry is today forcing the Germans back according to reports received here this afternoon. The enemy is withdrawing from the right bank of the north canal.

In the region of Jumecourt, the Chauny-Laon railway has been passed.

General Mangin was reported advancing along the Paris-Hirson and Soissons-Guignecourt railway.

(Operations in the Jumecourt region and along the railways named which follow the general line of the Vesle and Aisne river are evidently part of the maneuver against the Germans holding the Vesle line and against the Chemin-des-Dames position.)

British Effect Crossing

London, Sept. 4.—The British have crossed the canal to Dunord more than 2 miles north of Peronne, it was learned today. Field Marshal Haig's statement said that the canal had been reached. Drouot-St Quentin has been occupied.

The British hold Romancourt, eight and a half miles west of Cambrai.

A British armoured car is reported to have entered Marquion on the main highway between Arras and Cambrai, slightly more than half way between the two cities.

Allied detachments have crossed the Vesle river at several points and French and Americans are in the western outskirts of Coney Le Chateau the French war official announced. 1,000 prisoners were taken. General Mangin's troops are reported to have reached the edge of the table lands and are progressing toward the Chemin-Des-Dames.

Boche Seek Cover

With the British army in France, Sept. 4.—Everywhere on the front now being battered by the British, the Germans are seeking cover behind the Hindenburg line. Notwithstanding the fact that the line itself is seriously broken, the enemy high command is sacrificing thousands in an effort to reach it.

At noon Tuesday the British were only six miles from Cambrai, having advanced nearly five miles from the opening which was made in the German defense.

AMERICAN TROOPS ARE REPORTED IN SIBERIA

General Graves in Company with 43 Officers and 1,000 Men Have Landed According to March

DIVISIONS ARE IDENTIFIED

Washington, Sept. 4.—Arrival of Major General William Graves, American commander of our troops in Siberia, with 43 officers and 1,000 men on Sept. 2 was announced today by chief of staff March.

At the same time he identified as the 30th division the Americans which distinguished themselves in the Flanders fighting during the past week, and as the 32nd division, the Americans who valiantly battled north of Soissons with the French. Troop embarkation for all ports passed the 1,600,000 mark Aug. 31 he said.

General Graves will at once assume control of the American units numbering close to 4000 in Siberia.

TWO ASSIGNED TO CAMPS

Lieut. Koons to Camp Jackson and Lieut. Cameron to Ft. Sill

Lieut. Pat Koons who was recently commissioned second lieutenant in the United States field artillery, has been ordered to Camp Jackson, South Carolina where he will take up his duties as second lieutenant.

Lieut. Lawrence Cameron, whose commission was obtained at the close of the same class has been ordered to a Ft. Sill regiment. Both men will leave for their camps the last of the week.

RUSH COUNTY BOY IS INJURED IN FRANCE

Arthur Grigsby Formerly Of Richland Sustains Serious Wounds At Hands Of Boche

THIRD TIME TO FRONT LINE

Arthur Grigsby, formerly of Richland township, who has been playing an active part in the war on the western front during the summer, was injured while in action on August 10.

News of the incident was received by the boys parents a short time ago and although no particulars were contained in the brief message from the war department, they were advised that his injuries were serious degree undetermined.

Private Grigsby left Rush county a year ago with the first contingent of drafted men for Camp Taylor and had been in France for three months.

Letters which were received recently from the young infantryman indicated that he had been on the firing line twice and when the letter was written, had gone to a rest camp. The accident probably occurred on his third trip to the front line.

IS ADVANCED TO THE RANK OF CAPTAIN

Edwin Watson, Son of Senator and Mrs. James E. Watson, Wins Promotion at Vancouver

IS IN SPRUCE PRODUCTION

Edwin Watson, son of Senator and Mrs. James E. Watson of this city, has been advanced to the rank of captain in the United States regular army.

The young regular army captain has displayed his ability to command men through the difficult task which fell into his hands a few months ago when he was ordered to Vancouver, Wash., to have charge of a military company at the Spruce production division of the aviation corps.

Eighteen months ago the former Rush county boy was commissioned second lieutenant of a company at Fort Leavenworth, Kansas, a few months later was sent to Camp Taylor and then to Vancouver with his rank raised to that of first lieutenant.

RAIN POSTPONES GAME

(By United Press.)

Chicago, Sept. 4.—The first world series game today was postponed because of rain.

A suit has been filed in the circuit court by Albert Kennedy against the Innis and Pearce furniture factory. Trouble arose over the employment contract and the plaintiff asks for \$1500 settlement.

IS PREPARING FOR THE REGISTRATION

County Army Selection Board Has Arrangements About Completed For Military Census.

SOME REGULATIONS THE SAME

Legal Advisory Board Will Explain Its Plans in Slips to be Given Registrants.

The county army selection board is completing preparations for the registration, a week from tomorrow, September 12, of all men more than eighteen years of age who have not attained their forty-sixth birthday, under the terms of a proclamation issued by President Wilson. Basing estimates on previous military registrations here, it is expected that approximately 2,500 men will register in Rush county.

The precinct registrars have been appointed and the registering places will be announced in a few days. The supply of registration cards and registration certificates have been received, and the cards have been tied in bundles ready to be distributed to the various precincts.

The regulations governing this registration are very similar to previous ones. One exception is that registrants shall not be assigned numbers by the registrars when they register, as was done June 5, 1917, but that serial numbers shall be given by the local board.

Although the regulations make no mention of order numbers, it is presumed that another drawing will be held in Washington after the registration to establish the order in which the registrants shall be called, as was done after the first registration.

The same rule applies as to the return of questionnaires. They are to be returned to the board filled out within seven days after they are received by mail by the registrant. The board has not yet been instructed how many to mail each day. After other registrations, they were mailed at the rate of ten per cent a day.

The legal advisory board and other attorneys who are delegated by the board to assist, are making preparations to help registrants with their questionnaires. They all have powers which are equivalent to those of a notary public and supply assistance free of all charge.

Because of the great number which are expected to register this time, making the task much more difficult for the attorneys, Judge Sparks, who is chairman of the legal advisory board, has prepared a printed slip which will be given to each registrant. It will explain that the services of the legal advisors are free, and request that the registrant have his questionnaire filled out as soon as possible after he receives it so that the board will not be rushed with a large number of registrants seeking assistance at the same time. This statement will also explain to the registrant that if he has not sought the aid of the board within a certain number of days after receiving his questionnaire, it will be assumed that he does not want the help of the board.

IS RELEASED FROM JAIL

Thomas McKee who was arrested more than three months ago on a charge of petit larceny, was released from jail today. The release was the result of a circuit court hearing and the decision of Judge Will M. Sparks which was a suspended sentence of one to eight years.

CRUSADE IS BEGUN AGAINST GARAGES

Rush County Garage Men Must Begin Extensive Improvements on Buildings at Once

ORDERS OF FIRE MARSHAL

Every Garage in City is Hit by New Fire Proof Laws Which Govern Their Operation

The death knell of non-fire proof garages was sounded in Rushville yesterday when a general cleaning up of the situation was effected by the deputy state fire marshal as a portion of the state wide crusade which is being carried on.

Every garage in the city was hit by the new fire proof ordinances which have become effective and although the degree of improvements which will be necessary in some buildings will be less than others a certain amount of remodeling must be done in each of the operating business houses here.

The fact that the new fire ordinances prohibit the use of open fires in the garage proper, has been the main trouble found to exist in this city. The measure renders as unlawful the use of either a furnace or stove in the main garage department, thus necessitating a great amount of remodeling in most of the local garages.

The new order also prohibits the storing of automobiles in buildings used for mercantile business unless the machines have been first drained of all gasoline. This order is being strictly enforced, according to the deputy fire marshal because of the great fire losses of last December which, through careless, mounted to over the \$200,000 mark.

Old livery stables and other dilapidated buildings will no longer be allowed to be made into flourishing garages, unless they fill every requirement of the fire proof or at least semi-fire proof requirements of the state.

The necessary improvements in Rushville garages must be made at an early date, according to the fire marshal who stated that the winter storage of cars cannot be effected unless the improvements have already been made in all of the garages which wish to operate during the winter.

CHRIS KING AWARDED PRIZES AT STATE FAIR

Anderson Township Fruit Grower Makes Raid on Prizes, Taking Forty-Four Firsts.

DISPLAY IS MOST COMPLETE

Chris King of Anderson township has made a raid on the first prizes which are being offered at the state fair this week and out of fifty-three entries has taken forty-four first prizes and seven seconds.

The display, which is one of the most complete in the fruit department at the state fair, has been obtained from the orchards of one of the foremost fruit raisers in this part of the state. The tabulations of the committee in charge of the prize distributions show that the display of Mr. King's took all but two prizes. The plum crop of the Rush county fruit grower was especially bountiful this year, the owner realizing \$365 from a plum orchard covering less than a fourth of an acre.

LAW GOVERNING TRAFFIC PASSED

City Council Approves Ordinance Which Will be Effective After Legal Publications

ONLY SLIGHT CHANGES MADE

Provides Fine of Not Less Than \$1 or More Than \$50 For Violations of Any Section

The city traffic ordinance was finally adopted at the regular meeting of the city council last night and will become a law just as soon as it is published the legal number of times to comply with the state law.

On its third reading, when it came up for final passage, only one change was made in the ordinance. On second reading August 20, section two was changed to read that all vehicle drivers when wishing to park, should drive parallel with the curb, instead of all vehicle drivers, when wishing to "stop, stand or park," should drive parallel with the curb, the words, "stop, stand or" being stricken out. Last night, when the ordinance was finally adopted, the words "stand or" were inserted in section two so that it reads when wishing to "stand or park." The other provisions in the section were not changed, namely, that the vehicle when parked shall be within twelve inches of the right hand curb and not closer than three feet to the vehicle in front or behind.

The council voted that the ordinance should be printed in booklet form for general distribution, and that attached to the city law should be a brief synopsis of the state laws regulating traffic.

The law is entitled "an ordinance for the regulation of street traffic and moving travel upon" and along the streets, alleys and public places, in the city of Rushville, Rush county, Indiana, providing penalties and punishment for the violations thereof, repealing all ordinances and parts of ordinance in conflict, fixing the time when the same shall become effective, and providing for its legal publication."

The penalty for violation of the terms of the ordinance, as fixed by section 24, is a fine amounting to any sum not less than \$1 or more than \$50.

Section one makes it unlawful to stand or park vehicles upon any streets over that part of which any public parades or procession is taking place, funerals excepted. Section three says that any vehicle waiting or parking at the curb shall promptly give place to a vehicle to load or unload. Section four provides no vehicle shall be backed without warning being given and unceasing vigilance being exercised, or be turned around without going around the block or to a street intersection.

Section six makes it unlawful for a vehicle to stop or stand with the left side thereof to the curb and section seven provides no vehicle shall stand within ten feet or any fire hydrant or street at alley intersection. Section eight declares "no vehicle shall be turned in motion or in starting to turn, from a standstill, unless a signal is previously given by raising the hand, indicating by it the direction in which the turn is to be made."

In slowing, stopping or turning into an intersecting street from the right to the left, the driver of a vehicle is compelled to signal those in the rear by raising a hand horizontally outside the car, under the terms of section nine, and section ten provides no vehicle standing on a street shall start less than a fourth of an acre.

LAW GOVERNING TRAFFIC IS PASSED

Continued from Page One
moving until vehicles passing headed in the same direction shall have passed. The next section makes it unlawful for a vehicle to emerge from an alley, stable or garage at more than two miles an hour, and then a signal must be sounded.

By the terms of section twelve, both drivers and pedestrians are bound at all times to comply with any directions from any member of the police or fire force, given by voice, hand or other means, in regard to provisions of the ordinance regulating traffic. Vehicles must stop at such distances from crossings as not to interfere with pedestrians, section thirteen says, and section sixteen provides there shall be no parking in front of the fire station.

Section fourteen provides vehicles carrying the mail, street cars, the fire department, ambulances and physicians when answering calls, shall have right-of-way, and section fifteen governs the action of drivers when the fire apparatus passes. Section seventeen makes it unlawful to park vehicles within a block of a fire or for people to congregate within 100 feet of a fire.

Section eighteen governs unloading from moving vans and section nineteen makes it unlawful to interfere with or damage traffic posts. Section twenty provides the council may declare congested districts and twenty-one makes it illegal to use a muffler cut-out on an automobile. Section twenty-two gives the owner or occupant of any building the privilege of applying to the council for permission to declare a non-parking space in front of the building, and the council the legal right to grant such a request. Section twenty-five makes it unlawful to drive a steam engine or tractor fitted with cleats on the wheels, over any street paved with brick, concrete or asphalt, or any other pavement of a permanent character.

J. D. Case was given permission by the council to make a sewer connection from the north part of his lot in Main street between Fifth and Sixth.

The petition of residents of a block in Market street west of Ivy street, for two street lights, was granted.

The council voted to buy 1,000 bricks from George T. Miller, who has them here for the purpose of paving Third street, to be used in repaving the streets. The advisability of graveling some of the unpaved streets because of their condition due to the lack of oil being applied for two years, was discussed but no action taken.

The treasurer's report for the month of August revealed not available funds on hands the last day of July amounted to \$36,318.71.

Lifting a few War Savings Stamps will cure that excessive appetite for sugar.

CATTLE BREEDERS IN TRI-COUNTY MEET

To Effect Permanent Organization of Short Horn Breeders For Rush, Henry and Hancock Co.

WILLIAM JOHNSON TO SPEAK

Rush county cattle breeders are looking forward with interest to the proposed organization of a tri-county Short Horn Breeders organization which will embrace Rush, Henry and Decatur counties.

The organization leaders are making arrangements for a meeting to be held at the close of the C. M. Vanderbark sale northeast of Greenfield, next Tuesday, September 10 and because the association will lend assistance to all such cattle men in the counties, all breeders of this brand of cattle are expected to attend the meet and to become affiliated with the proposed organization. William Johnson, who made the Port Wayne association a success will assist in the formation of the contemplated organization for the tri-county unit and J. E. Schwab, a cattle expert of Purdue will also appear on the program.

WILL STAGE LARGE SMUT DEMONSTRATION

The Farm of E. Inlow in Walker Township Will be Place of Treatment of Wheat For Smut

TO DISCUSS FARM PROBLEMS

One of the largest wheat smut demonstrations staged in the county will be effected on the E. Inlow farm near Manilla, Monday Sept 9 under the direction of Marion Detrick and J. E. East, county agents of Rush and Shelby counties.

The demonstration will be for extermination of stinking smut and after this is effected other farm problems will be discussed especially the wheat problems which are facing every community where a large wheat planting is contemplated. A similar demonstration will be given the same morning on the J. Arthur Looney farm, south of Kings.

BANKERS ARE GIVEN 3RD CLASSIFICATION

Are to be Regarded as Engaged in Work Necessary to Needs of United States.

RULING MADE BY CROWDER

(By United Press.)

Washington, Sept. 4. — Provost General Crowder today announced that bankers and other persons engaged in employment not previously regarded as warranting the third classification may now apply for exemption on grounds that their work is necessary to the nation. Men holding important positions in the Red Cross and other similar organizations, those engaged in public health, and similar employments are entitled to the third classification, the statement announced.

This ruling removes the danger of a too narrow construction of the word "industry" which the draft boards have construed as excluding bankers and those engaged in similar occupations.

Amusements

"The Danger Game"

A story of melodramatic daring will be featured at the Princess theater this evening when Midge Kennedy and Tom Moore, two of America's most famous movie stars will appear in "The Danger Game." In addition the Pathe News pictures will be shown. Tomorrow Wallace Reed will appear in "The House of Mystery" and the picture will be supplemented with the Allied War Review. Beautiful Line Cavalieri will appear Friday in "Loves Conquest."

—Franklin Norris and Cyril Caru were Indianapolis visitors today and will attend the State Fair.

—Mr. and Mrs. M. E. Hess of Caz, Ind., came today to attend the funeral of Samuel Finney, Sr.

—Mrs. A. N. Marlett has gone to Commerceville for a few days visit with her daughter, Mrs. Fred Miller.

—Mr. and Mrs. Samuel Anderson of Decatur County visited relatives here this morning enroute to Indianapolis.

—Miss Rena Offutt who is attending business college at Indianapolis, spent the week end with her mother, Mrs. William Offutt.

—Miss Mary Fair returned to her home in Marion yesterday evening after a visit with Mr. and Mrs. W. C. Brown of Homer.

—Mr. and Mrs. George Taylor, of Shelbyville, motored to this city yesterday and were the guests of friends and relatives.

—Miss Marjorie Thomas and Miss Catharine Guffin were the guests of friends in Indianapolis today and attended the state fair.

—Miss Irene Gerecht has returned from Indianapolis where she spent several days the guest of her aunt, Mrs. James Scanlan.

—Mr. and Mrs. Martin Owens of Indianapolis returned to their home today after spending a week here, the guests of relatives.

—Ross Brown has returned to Camp Taylor, Ky., after spending a few days with his parents, Mr. and Mrs. W. A. Brown of Homer.

—James W. Downey and children Agnes and Vinson, have returned to their home in Anderson after spending several days with relatives here.

—Mrs. Wendell Wilkie has returned from Louisville, Ky., for a visit with her parents, Mr. and Mrs. Phil Wilk of North Harrison street.

—Dr. and Mrs. C. E. Smullin of Raleigh visited in this city for a short time today enroute to Indianapolis where they were among the visitors at the state fair.

—The Misses Loretta Rebenisch and Gertrude Rushin have returned to their home in Indianapolis, after spending the week-end with Mr. and Mrs. James Rubstin, northeast of the city.

—Simeon Stewart has returned from Kansas, where he spent the summer and is the guest of his parents, Mr. and Mrs. A. L. Stewart or a few weeks before returning to Purdue university.

—The Misses Edna and Hazel Davis have returned to their home in Dayton, Ohio, after spending a few days with Mr. and Mrs. Carlton Chaney. Mrs. Chaney and son Harold, accompanied them home to spend a week, after which they will visit in Middletown and Hillsboro, Ohio, before returning to their home.

—Mr. and Mrs. Carr and son Ralph, have returned to their home in Indianapolis after spending several weeks in this city. They were called to the bed side of Mr. Carr's mother, Mrs. America Carr in West Third street. She has sufficiently recovered and will accompany them home for an extended visit.

It doesn't matter whether Ludendorff, Hindenburg, the crown prince or the Kaiser himself is commanding the Hun armies, War Savings stamps will blast them all.

GERMANS ADMIT WITHDRAWAL IN FLANDERS AND PICARDY

(Continued from Page One)
4,000 prisoners, 2,200 more were dumped Tuesday. This was only part of the previous night's cleaning.

British Continue Advance

London, Sept. 4.—The British continued yesterday to make progress in the Lys salient, where Richebourg and St. Vast were captured. In the vicinity of Lens a furious battle is in progress for the possession of that city the fall of which was reported in unofficial dispatches yesterday. Lens is one of the strongest points of the German defenses in the north. In his statement last night Marshal Haig mentioned only a slight advance by British troops in the outskirts of the city.

South of Queant, east of which the British advanced to Baralle, the enemy's position at Cambrai is endangered. Cambrai is eight miles farther east, but continued British advance at the present rate would soon bring it under artillery fire. The British line west of Cambrai is almost where it was last March when the German offensive began. South of Queant as far as Peronne, Haig's forces pushed ahead Wednesday, while farther south the French crossed the Canal du Nord and occupied Salency.

Hold on France Weakens

London, Sept. 4.—Referring to the German situation, a Paris dispatch said the following to say: Between Ypres and Rheims, with General Mangin menacing the St. Gobain forest and the Chemin-des-Dames, with Generals Humbert and Debeney advancing on St. Quentin, and the Franco-Americans on the Vesle, with General Rawlinson before Peronne, General Byng before Lens and General Plumer before Arras, the enemy feels the soil of France slipping under his feet.

Commentators point out that in the present offensive, continuity has been preserved for forty-six days, and that not since the beginning of the war has such an extended series of hammer blows been directed, throwing the adversary into complete dismay. The enemy apparently is unable to reorganize his forces to make a stand capable of arresting the onward march of the allies.

FOOD CLUBS PRESENT IMPORTANT PROBLEMS

(By C. V. Stainsby, Assistant to Dr. Harry E. Barnard, Federal Food Administrator for Indiana.)

When such a large organization as that of the U. S. Food Clubs is undertaken many questions arise. The first one to present itself in this case is: Why form another organization when there are so many already? The answer is easy. There is no other organization that can do the work. Many other organizations were willing to help. Many organizations have given great assistance. The U. S. Food Administration appreciates all that has been done but there were too many gaps left which could not be ignored.

By working through existing organizations some homes would be reached through half a dozen different sources. The great majority of homes, however, were not reached at all. It was necessary that these homes be reached to keep them in touch with the needs of the hour. Hence the Food Clubs.

There is another reason why existing organizations could not satisfy all requirements. A literary society, for example, would meet to discuss food problems. The same program would be given perhaps as that carried out by a Food Club. The literary society would still think of itself as a literary society doing work different from its usual line. The Food Club on the other hand realizes that it is doing its own work. When four thousand U. S. Food Clubs are at work, conscious that they are doing the work for which they were created there will be greater interest and greater results than would otherwise be possible.

A special organization is necessary to fight our food battles at home just as surely as a special organization was needed to fight the battles in France. The War Department created the National Army. The U. S. Food Administration for Indiana is organizing the U. S. Food Clubs. Be ready to join a U. S. Food Club in your neighborhood.

To help with the re-education of mutilated soldiers at Pescia, Italy, the American Red Cross will supply sewing machines, typewriters and tools for cabinet-making and shoe-making to the territorial hospital, of the Italian Red Cross.

ORDER COAL NOW; YOU MAY NOT GET IT IF YOU DELAY

Consumers Can Help Prevent Shortage Next Winter by Buying Now, Says Fuel Administrator.

GARFIELD SOUNDS WARNING.

Better Borrow Money Now to Buy Than Do Without Later, He Says—If Your Storage Space Isn't Large Enough, Enlarge It.

By HARRY A. GARFIELD, United States Fuel Administrator.

Every householder, every public utility and every industrial user of coal engaged in work essential to the prosecution of the war are earnestly advised and urged to place without delay their orders for coal to cover their needs for the 12 months beginning April 1.

During the past 12 months there has been suffering among consumers and a curtailment of essential production by industries through inability to obtain necessary fuel after the beginning of winter. A year ago consumers were led to believe that they might safely withhold their orders until later in the year. They labored under the impression that coal could be bought and secured as well at one time as another. They were told that there was plenty of coal for everybody and that there would be plenty of coal cars to move the coal in also.

This advice and its acceptance by consumers was one of the contributing causes to the coal shortage, with its consequent suffering among domestic consumers and lessening in production of commodities needed in our war activities.

The Fuel Administration was not then in existence and did not begin its work until August 28. It was then already too late to undo the harm which had been done. The Fuel Administration would be negligent of its duty to the public if it failed to call attention at this time to the unfortunate results of the mistaken course pursued by the public a year ago and to warn all consumers in the most emphatic manner possible that a repetition of those results can be avoided only by accepting and acting immediately upon the Fuel Administration's advice, here given:

Order Your Coal at Once.

Let every consumer of the classes mentioned ascertain his fuel requirements for the coming year. Do this at once. Order sufficient coal to meet those requirements. Place your orders at once. If domestic consumers have not sufficient storage space for the coal they will need they should enlarge their bins. If public utilities and industries engaged upon government work have not sufficient storage space they should at once provide it.

The production of coal in this country is fundamentally a transportation problem. There are enough coal cars and enough locomotives to transport the necessary quantity of coal, only if every car and every locomotive is used to its maximum capacity every day in the year. There are enough operatives in the mines to get the coal from the ground if those operatives can work every day in the year and if the coal cars and locomotives are available every day.

The fuel problem is to get the coal from the first place of deposit to the final place of deposit with as little delay as possible and in as steady and continuous a stream as circumstances will permit. The railroads may be compared to a water pipe, which needs to run full all the time to carry the necessary amount of water to its destination. If that water is shut off for any appreciable time it means an ultimate shortage. The pipe can carry no more than its maximum capacity per day.

Borrow, if You Must.

Inconvenience of paying for coal in the spring or summer when it will not be needed until autumn or winter should not influence any consumer to delay placing his order and securing his supply. It is far wiser to borrow money in the spring to pay for one's coal than to wait until autumn or winter, when if the coal has not been mined and shipped money cannot procure it.

The Fuel Administration, through the State Fuel Administrators and local committees, is prepared in every reasonable way to aid public utilities, essential industries, retail dealers and domestic consumers in placing their orders and in securing assurance of a sufficient supply of fuel. All these governmental agencies, however, are powerless if the consumers themselves fail to act. Again, therefore, the Fuel Administration urges every consumer to place his orders immediately. This should ordinarily be done through the medium of supply upon which the consumer has relied in the past. If this course is followed it may be hoped that the suffering and loss of the past winter will not be repeated. If it is not done consumers will have themselves to blame.

Hints from the
Bischof
Style Show

The Season's Most Attractive Suits

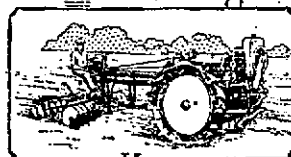

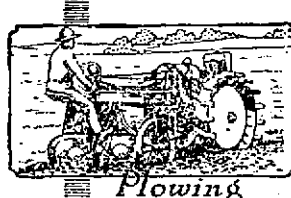

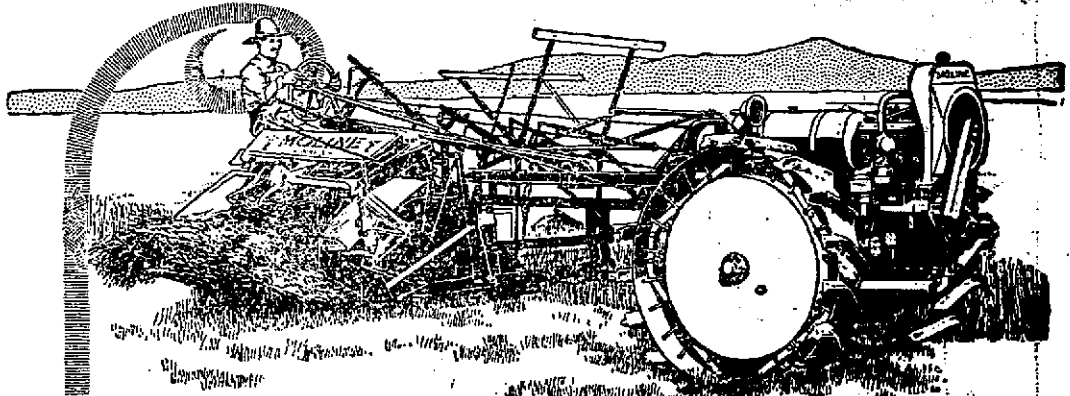

Handsome Styles for every Taste and Occasion

In the collection of new Fall Suits recently received from Bischof, we are enabled to announce a varied assortment of most attractive styles. The suit you have been dreaming of is here. Such a combination of distinctive designing skill, with rare taste in the selection of seasonable fabrics, as is exemplified here, is seldom to be found.

We shall take genuine pride in showing you these suits.

E. R. CASADY

ONE MAN CAN FARM MORE LAND with the

MOLINE UNIVERSAL TRACTOR

It Solves The Farm Help Problem

With the Moline-Universal—the original two-wheel tractor—One Man can farm more land than was ever before possible, because—

One Man has power at his command equal to six horses, capable of doing the work of nine horses, due to its greater speed and endurance.

One Man operates the Moline-Universal from the seat of the implement to which it is attached, where he must sit in order to do good work.

One Man can start in the spring and go from one operation to another—plowing, harrowing, planting, cultivating, sowing, harvesting grain or corn, spreading manure, filling the silo, cutting wood, etc., doing all farm work from one year's end to another, independently of horses or hired help.

All these one-man operations are possible with the Moline-Universal because it is mounted on two wheels. It attaches direct to the implement, making one compact unit—the tractor, the front wheels and the implement the rear wheels. One man controls the entire outfit from the seat of the implement. There has been good reason in the past for putting a seat on implements, for it is from this point that the work must be observed and that adjustments must be made.

Being close coupled to the implement, the Moline-Universal tractor backs as readily as it goes forward, and turns in a 16-foot circle. It steers so easily that a boy or woman can handle it as well as a man.

With the Moline-Universal one man can take care of all the requirements on the average size farm.

Plowing with two-bottoms, the Moline-Universal tractor does as much work in one day as the ordinary three-plow tractor, due to the higher speed at which it operates, 3 1/2 miles an hour. It has the power to run at this high speed because all of its weight is traction weight—all of it is converted to pull.

The light weight of the Moline-Universal tractor, 3380 pounds, and its high clearance—greater than that of the average cultivator—make it perfectly adapted for cultivating. It isn't the kind of tractor that does your plowing and seed bed preparation and then rests while your horses do the planting, cultivating and harvesting.

Mechanically, the Moline-Universal is the most modern tractor built, containing more refinements and improvements than any other tractor on the market.

WAR REVENUE BILL TO RAISE BILLIONS SUGAR RATIONED FOR CANNING TOO

House Ways And Means Committee Has Worked For Several Weeks Framing Measure

IT CARRIES \$8,012,792,000

Is Biggest Revenue Bill Which Congress Has ever Been Called upon To Enact

Washington, Sept. 4.—The war revenue bill, which was reported favorably to the house of representatives yesterday, is expected to raise \$8,012,792,000. The house ways and means committee has been at work several weeks framing the bill. It carries greatly increased income taxes, beginning with a normal tax of 6 percent on all below \$4,000 a year and above the exemption limits.

To reach war profits, a flat war profits tax of 80 per cent is levied, with an alternative plan of excess profits taxes ranging from 35 to 70 per cent. The maximum surtax of incomes is raised to 65 per cent, and the normal tax on all incomes over \$4,000 is made 12 per cent.

The bill, which will affect directly or indirectly every person and business concern in the United States, probably will be taken up in the House for consideration next Thursday, with prospects that it can be disposed of within a week or ten days.

Treasury experts have estimated, Chairman Kitchen stated, that the bill as finally agreed upon will produce an annual revenue of between \$8,100,000,000 and \$8,200,000,000, thus making the measure by far the greatest revenue producing proposal which Congress has ever been called upon to enact.

The bill, in its form, Chairman Kitchen said, is in the main satisfactory, both to the Treasury Department and to the ways and means committee. Secretary McAdoo, he said, had approved all of the schedules with the exception of the rate on excess profits, and the 18 per cent normal income tax on corporations, with the abatement of 6 per cent for distribution of profits.

The outstanding features of the completed bill are:

It does not impose consumption taxes of a higher tariff, as it was understood that neither would be resorted to unless all other means of raising the \$8,000,000,000 should fail.

Every person and every business concern in the United States and every American portion of income or foreign corporations operating in the United States is reached by the provisions of the bill.

Rates of existing tax laws in the main are doubled. A distinctly war profits tax as an alternative to the excess profits tax, embodied in the present law, is levied. The war profits tax is a flat 80 per cent of the net income above a specific exemption of \$3,000 and deduction of 10 per cent of invested capital added or withdrawn since the close of the pre-war period.

The war profits tax is not to exceed 35 per cent in the case of corporations, the interested capital of which, for the taxable year, is not over \$25,000 and 40 per cent maximum for concerns of \$50,000 invested capital in order to protect small business.

The war profits of excess profits are to be applied alternatively, according to which will produce the most revenue. The excess profits tax is 35 per cent of the net income up to 15 per cent on invested capital, 50 per cent for between 15 and 20 per cent on capital, and 70 per cent for net income exceeding 20 per cent on such capital.

For the first time a luxury excise tax ranging from ten per cent on straight luxuries to 20 per cent on amounts paid for variety of articles in excess of specified prices is levied.

All income statutes include a normal tax of 12 per cent and surtaxes running up to 65 per cent are codified. Under the present income tax law individuals and partnerships pay super-revenue taxes on their total annual profits up to the present top rates of 60 per cent. Corporations only pay the normal tax and stockholders pay the super-tax on 66 2/3 per cent of annual profits which are retained in the business.

Under the normal corporation income tax of eighteen per cent in the

Only Twelve and a Half Pounds Per Capita From May 1 to Nov. 1 is Allowed

NO USE TO TRY TO DOUBLE UP

All Sugar Permits go to County Food Administrator Who Checks Them All Up

The attention of the public is called to the fact that the following regulation regarding the distribution of sugar for canning purposes is in effect:

No permit for the purchase of sugar for canning purposes will be issued for more than ten pounds at any one delivery.

The total allotment of sugar to each family for canning purposes shall not exceed 12 1/2 pounds per capita for the entire season from May 1 to November 1.

All sugar permits for canning purposes must be issued and signed by the county federal food administrator or his authorized deputy. The retailer supplying sugar upon such permit must return them to the federal food administrator not later than the following Monday.

The language used in the foregoing statement of the sugar regulation is perfectly clear, and needs no explanation. The import of it is that families who have already received sugar in an amount aggregating twelve and a half pounds for each member of their family cannot receive more sugar before November 1. Those who have not received this much can figure for themselves and determine the amount to which they are still entitled.

It should not be necessary to warn against trying to evade the regulation by obtaining sugar permits from more than one deputy administrator and making purchases at more than one retail place of business. The sugar permit for every person comes to the office of M. F. Lovett, the county administrator, who is thus able to keep an absolute check on the amount of sugar that has been purchased by every family, and any violation of the regulation will readily disclose itself in the administrator's office.

BANKERS ARE URGING EXCHANGE OF BONDS

Say Opportunity of Exchanging For Securities Yielding Larger Per Cent Should be Taken

THE PERIOD OF CONVERSION

Indianapolis, Ind., Sept. 4.—Bankers here today urged Liberty Bond holders to take advantage of the opportunity offered by the government to exchange bonds bearing 4 per cent interest for the securities yielding a fractional larger return.

This conversion may be accomplished by presenting the bonds to the bank through which the original subscription was made. Bankers say comparatively few people have taken advantage of the opportunity to secure greater interest on their bonds despite constant urging of the federal government.

The period allowed for conversion of the securities expires November 9. Holders of 4 per cent bonds who do not accept the opportunity before that date will lose the 1 per cent interest and also will find the market three to four points below that of the 4 1/2 per cent bonds.

pending bill, with a rebate of six per cent for distributing its profits, a corporation would pay six per cent more normal tax on this 66 2/3 of profits retained in the business.

The bill retains the present income provisions for payment of the tax at the source, exempts the first \$1,000 of annual net income of single persons or of married persons not living with their husband or wife, and the first \$2,000 of the annual income of married persons and embodies most of the provisions of the present income tax law.

An advisory tax board of five members, at \$9,000 each, to advise as to interpretation and administration of internal revenue laws is created.

All buildings and articles as listed above will be sold for cash and subject to their removal by the purchaser. All moneys will be payable to the County Treasurer.

WILLIAM H. McMILLIN,
Auditor Rush County.

An Engine Is No Better Than Its Cylinders and Pistons

You don't have to send your Ford out of the City to have it Re-bored.

Having recently installed in our shop a new machine for re-boring Ford motors we wish to call your attention to the fact that we are now prepared to re-bore and fit new over-size pistons and rings in your Ford motor.

These are the results you obtain by re-boring

You increase power from 10 to 50 per cent.
You eliminate that elusive knock.
You stop the escaping gas around piston rings which abnormally heats the crank case.
You stop the admission of auxiliary air past the piston rings which dilutes the mixture.
You use less lubricating oil.
You use less gasoline.
You drive slower on high gear.
You take hills with perfect ease and grace.
You attain greater speed on level.
You eliminate the over-heating.
You stop fouling your plugs.

Our Price is Reasonable.

Bring in your motor and let us fix it up.

Doctors Urge People to Use More Iron and Phosphates

They Come Out Strong For Phosphated Iron

Leading doctors all over the country are rapidly learning that one of the preparations they can always depend on for all blood and nerve troubles is Phosphated Iron. They have found that it gives results and can be depended upon.

Phosphated Iron has proved a real red blood and nerve builder in the Spring season when so many are all run down and dragged out, due to lack of fresh air, exercise, green foods and clogged, poisoned blood. Scientists say Phosphated Iron builds up your body by building up your blood and nerves, and many physicians claim there would be few over-worked men, nervous women, bloodless old people and pale children, were the benefits of Phosphated Iron more widely known. That there is no need of anyone going around tired out, all in nerves on edge, suffering with poor blood and lack of energy when Phosphated Iron will make you feel like a live one, make you look 100 per cent better, give you restful sleep, brace you up so you can work with ease and enjoy life once again.

Get Phosphated Iron today and start in right, you owe it to yourself and friends.

To insure physicians and their patients getting the genuine Phosphated Iron we have put in capsules. Do not take pills or tablets. Insist on capsules. PITMAN & WILSON and leading druggists everywhere. (Adv.)

Social Calendar

Thursday

Women's Missionary society of the Christian church, in the afternoon, at the church at 2:30.

Aid society of St. Mary's Catholic church in the afternoon with Mrs. Anthony Schriebe, 319 West First street, assisted by Mrs. Robert Williamson.

Grand Club, with Mrs. Frank Wilson, 612 North Main street in the afternoon.

Lurline Council will be in the Red Men's Hall at 7:30.

One of the most enjoyable meetings of the Penny Social of the Women's Relief Corps was held yesterday afternoon at the home of Mrs. Phoebe Phillips of Arlington. There were twenty-eight members present and nine visitors. After a short business session a very interesting program was carried out. Letha Dye gave a patriotic recitation, "Who Made the Kaiser," after which Alice Bainbridge read, "Betsy Ross Flag." The musical numbers were rendered by Mrs. Richy of Arlington, and "The Woman Behind the Man" by Nannie Goodin. Cornelia Lyons gave "A Tale of Timothy Jones," and as a closing number, Louis Deeter rendered "The Flag of Our Country." The home of Mrs. Phillips has been the scene of the annual gathering for some time and the next meeting which will be held in October at the home of Mrs. Will Young in Circleville.

The regular semi-monthly meeting of the Psi Iota Xi sorority was held last night at the home of Miss Margaret Ball in North Morgan street when some of the numerous plans for the national war fund were finally worked out. A four-month-old pig was donated to the sorority by Austin Frazee which will be sold on Saturday, Sept. 14, and the proceeds will be turned over to the war fund. Mrs. Bert Snoddy, living on the Frazee farm, has given a duck and Mrs. Ford Retherford has donated a chicken which will also be sold Saturday and the money will go into the war treasury. During the business session Miss Ruth Innis, a representative of the Franchise League received numerous memberships and signatures to the suffrage petition.

Miss Cecil Downey entertained Monday evening with an informal dinner party honoring her house guest, Agnes Downey of Anderson. The evening was spent at music and games. The guests included Ethel Galimore, Anna Wiley, Nora Ball, Freda and Lottie Wardfield, Stella McDonald, Dorthia Moore, Ruby McDonald, Ralph Koller, Carrol Nipp, Loren Woods, Paul Doll, Weldon Hudson, Kern Thomas of Arlington and Carl Winkler of Shelbyville.

The members of the Lurline Council will hold their meeting in the Red Men's hall tomorrow at 7:30. All members are urged to be present as important business is to be discussed.

Mrs. Frank Wilson will be hostess tomorrow afternoon for the Grand club.

DAYS PICKINGS

A congregational meeting will be held at the First Presbyterian church Sunday morning, Sept. 15, 1918, for the purpose of electing trustees, elders and deacons and for transacting any other business that may come before the meeting.

Gerdell and Rollin Bean the children of Mr. and Mrs. J. E. Bean in East Seventh street, has undergone an operation for the removal of their tonsils and adenoids.

SPLENDID REPLY OF COUNTY WOMEN

Response of Rush County is Such That Successful Close to Franchise Drive Is Assured

GOT UNDER WAY YESTERDAY

Meetings Through County Prove Great Help in Furthering Work of Canvassing Committees

Rush county women are responding splendidly to the call of the suffrage movement in the county and the Franchise Membership campaign is receiving such support that a successful close to the weeks drive has been assured.

The campaign got under way in excellent shape yesterday as the reports which were made at the county chairman this morning showed that in each township the campaign chairmen had most encouraging reports from each canvassing team.

Since the success of the campaign has been assured, leaders of the suffrage movement are working feverishly to place Rush county's quota over the mark of 850 members and 6,000 petitioners before the remainder of the counties in the district, thus maintaining the county's record for speedy response to each war movement which has become an issue in the county.

The opening days of the campaign have disclosed the fact that on every hand the women understand that the successful operating of the campaign is as vital a necessity as was their part on the loan drives, and the various Red Cross movements to which their splendid response aided materially in the county being placed high on the honor roll of the state.

Miss Mary Sleeth, chairman of the Franchise movement in this city, delivered a stirring suffrage address in Glenwood last night where a meeting led by the suffrage heads of the county, started the membership drive in Union township with a bang. A. L. Gary and Samuel L. Trahue also delivered short talks in favor of the movement and the girls' quartet of this city gave a number of musical selections which featured the musical program led by A. M. Taylor of this city.

A similar meeting which will tend to push the drive in Posey township will be staged in Arlington this evening at eight o'clock and will be attended by a flying squadron of automobiles from this city and several suffrage speakers. A meeting has also been planned for Milroy on Saturday evening, when a demonstration will act as a grand finale for the drive in Anderson township.

MARJORIE MATTOX IS RUN DOWN BY AN AUTO

In Avoiding One Machine, 6-Year-Old Daughter of Bert Mattox Darts in Front of Another

IS ONLY SLIGHTLY INJURED

Miss Marjorie Mattox, six-year-old daughter of Mr. and Mrs. Bert Mattox of East Fifth street, narrowly escaped serious injuries yesterday evening when she was run down by a machine in the downtown district of Main street.

The child attempting to cross the street and in avoiding one machine, stepped directly in front of an automobile from Shelbyville which, although it was traveling at a slow rate of speed, was unable to avoid the accident since the child darted in front of the car.

The child was knocked down and her knee bruised and cut slightly, and aside from minor bruises on other parts of her body, she escaped serious injury.

Save it by spoonfuls Send it by shiploads

Hot weather in Venice, too—and 290 sick and delicate babies receive specially prepared milk at the dispensary operated by the American Red Cross.

OFFICIALS PRAISE OUR ORGANIZATION

Declares That County Formation Will Aim Direct Shot At Foundation Of Berlin

MODEL FOR HOOSIER STATE

Subscribers Should Enter All Subscriptions Through Banks Where They Have Accounts

Rush county has completed an organization which will put over her part in the Fourth Liberty Loan campaign with a smash that will shake the foundations of Berlin.

Such was the assurance which has come from the state loan headquarters upon their receipt of the complete county organization of Rush county's executive and sales departments for the approaching drive.

William Wade, federal sales director for Indiana, has praised the Rush county organization highly stating that it was one of the first as well as the most complete organizations which has yet been submitted to the state headquarters and that it will furnish a model to guide the more backward organizations of the district and state.

The plan of taking loan pledges two weeks before the official opening of the national drive was heartily approved by the state headquarters where the plan was sent for approval, officials there declared that it was the best method yet brought to their notice whereby the drive would be brought to a speedy close and the maximum quota more easily realized.

Bronze liberty bells with the inscription "United States Liberty Loan Solicitor" engraved upon them will be worn by the canvassers during the drive. This is the first time that the loan canvassers have been "tagged" for the campaign and the bells will be honorary badges to be worn during their canvassing.

The county's quota will be based and calculated almost entirely on the bank resources and the depositors, regardless of where they live. Loan officials declared today that it is most important that subscribers should understand this and therefore have their subscriptions entered through the banks with which they have bank accounts.

An amount of difficulty has been evident in Rush county because of this fact and because of this, letters of instructions are being sent to banks and customers through the county, and solicitors are being instructed not to deflect a subscription or to attempt to divert it to any county. It should be placed in the bank where the subscriber has his account.

ANNUAL CONFERENCE OF COUNTY AGENTS

Agriculture Leaders of This District to Meet in Nashville, Ind., Wednesday, Sept. 11

DETRICK IS ON THE PROGRAM

The annual conference of county agents and emergency demonstrators of this district will be held Wednesday, Sept. 11 at Nashville, Ind.

The date of the convention which was originally placed at a later date in the month has been advanced in order that the conference might be a farewell event for the agent of Brown county who is to leave at an early date to take up Y. M. C. A. work abroad. The affair will be attended by Marion Detrick, Rush county agent who will appear on the program which will treat of the various departments of farm work, featuring the contemplated bumper wheat crop for 1919.

Energy is concentrated in sugar. Energy is in bulky form in fruits and vegetables.

No less than 300,000 soldiers' and sailors' families have been the recipients of "Home Service" of the American Red Cross, at the request of men men worried about family problems.

A Call To Duty

From the battle fields in France there comes an unspoken call that should find an answer in every American's heart.

The recent great events in Europe, the successes of American arms on the fields of France and Belgium should spur every American to greater effort. To do your full duty we must make every sacrifice and exertion to aid the cause for which our soldiers and sailors are fighting, for which our soldiers and sailors have died.

Prepare now for the Fourth Liberty Loan—Help Win the War.

Be ready to give a goodly subscription and buy as many bonds as you can—for Rush county has had a very prosperous year, with abundant crops and good prices for stock.

Over thirteen times as many bond holders today as in April, 1917. Let every member of each family and home own a bond before the Fourth Liberty Loan Campaign Closes.

BE PATRIOTIC — BE LOYAL — BE PREPARED TO DO YOUR FULL DUTY — BE A HELP TO OUR GOVERNMENT.

NO SUGAR ALLOWED FOR WINE MAKING

Food Administration Declares That It Will Not be Allowed For This Purpose

FOR SACRAMENTAL PURPOSE

Reports That Canning Allowances Are Being Turned Into Wine Making Being Investigated

No extra allowances of sugar for the purpose of wine making, even for sacramental purposes will be permitted by the sugar division of the United States food administration for Indiana. Neither will individuals be privileged to buy extra amounts, as for canning, in order to make wine.

Dr. Harry E. Barnard, federal food administrator for Indiana, in reply to an inquiry from Edward H. Steff, federal food administrator for Green county today stated that in all cases where it is desired to make wine for sacramental or religious purposes, the pastors are to be instructed to solicit contributions of sugar from members of their congregations, to be taken from their own home tables.

"Certainly no one can take exception to such an arrangement, if they are as religious and as patriotic as they should be. Every one can make such a contribution without danger of impairment of health from going without necessary sugar, and it seems to me that such procedure would add to the religious significance of any form or ceremony for which the wine is essential," added the food administrator.

Reports that canning allowances of sugar have been applied to wine making are being investigated in one other county. Should the report be found truthful it is likely, Dr. Barnard says, that still further limitations will be placed upon all sales of sugar to the offending families.

Join the Food Club in your neighborhood.

NOTICE OF FINAL SETTLEMENT OF ESTATE.

With the American Armies in Lorraine, Aug. 8.—(By Mail)—"The boches over there have a dog that ought to be cited by us," says the boys of a certain American regiment.

Every time there is a big German raid, this dog appears running along the German trenches. Every time, he has warned the Americans who are ready for the boches when they come over. Every raid has been repulsed and has been costly to the Germans.

The only possible explanation is that the dog belongs to a German officer of high rank who inspects the trenches before big raids.

Insists That Frail, Nervous Women Can Speedily Become Strong and Vigorous

A Vigorous Healthy Body, Sparkling Eyes and Health-Colored Cheeks Come in Two Weeks, Says Discoverer of Bio-feren.

World's Grandest Health Builder Costs Nothing Unless It Gives to Women the Buoyant Health They Long for.

It is safe to say that right here in this big city are tens of thousands of weak, nervous, run-down, depressed women who in two weeks' time could make themselves as strong as before you read this, and so keen-minded that they would compel the admiration of all their friends.

The vital health-building elements that these despondent women lack are all plentifully supplied in Bio-feren.

If you are ambitious, crave success in life, want to have a healthy, vigorous body, clear skin and eyes that show no dullness, make up your mind to get a package of Bio-feren right away.

It costs but little and you can get an original package at any druggist anywhere.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till all are gone. Then if you don't feel twice as good, look twice as attractive and feel twice as strong as before you started, your money is waiting for you. It belongs to you, for the discoverer of Bio-feren doesn't want one penny of it unless it fulfills all claims.

Note to Physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Leechin; Calcium Glycero-phosphate; Iron Peptonate; Manganese Peptonate; Ext. Nux Vomica; Fowl Gentian; Phenylphalein; Oleoresin Capsicum; Kolo.

VELVET BEANS FOR FATTENING CATTLE

Compare Them Favorably With Cottonseed Meal in Producing Profitable Gain

OBJECT OF EXPERIMENTS

More Profitable To Feed Soaked Beans Than To Grind Them Since Steers Will Eat More

Washington, Sept. 4.—Corn silage and velvet beans are said to be a satisfactory ration for fattening steers for market. This is the result of feeding experiments just completed at the United States Department of Agriculture farm at Beltsville, Maryland.

Other points brought out by the tests indicate that velvet beans compare favorably with cottonseed meal, producing profitable gains when the beans are the sole concentrate of the ration; that it is more profitable to feed soaked beans than it is to grind them; and that more beans will be eaten if soaked before they are fed than if they are fed dry.

The objects of the experiment were to compare velvet beans in three forms—whole, ground, and soaked—with cottonseed meal as supplements to corn silage and dry roughages, and to determine the most economical forms in which velvet beans might be fed fattening

Doctor Prescribed Vinol

For This Poor Mother Who Could "Hardly Drag Around"

Glasgow, Ky.—"I am a farmer's wife and was suffering from a nervous breakdown—loss of flesh and poor appetite so I could hardly drag around and do my work for my family. My doctor prescribed Vinol. It not only made me well and strong but I have gained in weight."—Mrs. S. M. Gray.

The reason Vinol proved such a wonderful strength creator in Mrs. Gray's case is because of the beef and cod liver peptones, iron and manganese peptones and glycerophosphates combined in a pure, native tonic wine, which makes Vinol the most successful tonic.

MR. FARMER, SEE W. G. DUKE. He HAS SOMETHING FOR YOU. 1211f.

cattle for market. Incidentally it was hoped that the tests would show possibilities of grain conservation in the production of beef as a war-time ration.

The cattle used in the tests were of the good 2-year-old steers in which short-horn blood predominated. They were bought last February in the East St. Louis market, where they were selected out of shipments from Illinois and Missouri, and were in fair stocker condition when placed on the experimental feeding rations. They were divided into four lots of 10 steers each, the lots selected so that they would be as nearly equal as possible in weight, quality, and condition. They were fed for 112 days.

The average daily ration consumed by Lot 1 was: 4.39 pounds of cottonseed meal, 31.72 pounds of corn silage, and 4.20 pounds of dry roughage. This lot made an average daily gain of 2.30 pounds, at a cost of about 12 cents a pound, or \$11.97 a hundred.

Lot two consumed an average daily ration of 7.59 pounds of dry, whole velvet beans, 26.85 pounds of corn silage, and 4.15 pounds of dry roughage. This lot made an average daily gain of 1.73 pounds a head, at \$14.12 a hundred.

Lot three ate each day an average of 5.87 pounds of velvet-bean meal, 26.92 pounds of corn silage, and 4.10 pounds of dry roughage. The animals made an average daily gain of 1.54 pounds, at a cost of about 14 cents a pound, or \$14.04 a hundred.

Lot four consumed an average daily ration of 9.02 pounds of soaked whole velvet beans, 24.40 pounds of corn silage, and 3.72 pounds of dry roughage. This lot made an average daily gain of 1.99 pounds a head, at a cost of about 13 cents a pound, or \$13.19 a hundred.

The dry roughage was the same for all lots and consisted of corn stover for the first 28-day period, and wheat straw for the last three 28-day periods.

The feeds were at current standard prices and the change against each kind included the actual cost of laying it down at the farm.

The examination of the carcasses in the cooler at Baltimore showed that Lots one and four were nearly alike as to quality. However, meat experts were of the opinion that if any difference existed it was in favor of the carcasses in Lot four. Lot two was better than Lot three, because of the greater covering of fat.

The average dressed weights, according to the Baltimore basis, gave the following percentages of dressed to live weight: Lot one, 54.16; Lot two 54.87; Lot three, 54.01; Lot four, 55.77. The steers sold on the farm by farm weights at 27 cents a pound more than they cost in East St. Louis.

HOOSIERS IN MISSING AND WOUNDED LISTS

Twenty-Two Indiana Boys Are Numbered in Casualties Made Public by War Department

DAY'S LOSSES TOTAL 406

Washington, Sept. 4.—The names of twenty-two Hoosiers appeared in today's casualty list which carried a total of 405 Americans in the killed and wounded reports.

Although none of the Indians was killed in action, the list of casualties was divided thus: wounded severely—Ora Day, Shirley, Ind.; William E. Berry, Flatrock, Ind.; Raymond Byers, Bedford; Tiffany L. Cavanaugh, Muncie; Harry Hutchins, Farmland; Joseph Pawelski, Michigan City; Elmer Pollard, Salem; William Borden, Indianapolis; Clarence E. Reynolds, Vallonia; Henry Apell, Evansville; Chester Nowakowski, South Bend. Missing in action—Albert Weaver, Edinburg; Harvey Mundy, Newcastle; Harvey Neary, LaPorter; Harley Page, Kootenai; Graham Scott, Huntington; Attilio Banassi, Indianapolis; George Beal, Gary; Charles Crosby, Rosendale; Vince Inman, Williams; Axel Johnson, Chesterton.

The entire casualty list was divided as follows: killed in action, 37; missing in action, 95; wounded severely, 143; died of wounds, 14; from airplane accident, 2.

CAREY D. HOLBROOK WOUNDED IN ACTION

Well Known Shelby County Boy Injured in Same Battle Which Placed Arthur Grigsby in Hospital

WOUNDED TENTH OF AUGUST

Carey Dennis Holbrook, of Shelby county, who is well known in this city, has been wounded in action, according to official word which has been received here from the Washington casualty department.

Private Holbrook was among the first of the Shelbyville draftees to leave for camp and among the first of the drafted troops to cross the ocean. That he was reported injured August 10, the same date as Private Arthur Grigsby of this county was injured, indicated that numerous Indiana units participated in fierce fighting somewhere on the western front early in August.

WAR MOTHERS MEET.

Indianapolis, Ind., Sept. 4.—An execution session of the Indiana War Mothers organization was held here today to frame a state constitution and by-laws and to elect delegates to the national War Mothers meeting at Evansville late this month. Organization work of the War Mothers organization was reported progressing rapidly. Several thousand members have already enrolled.

ALL LIMITED SERVICE MEN TO BE UTILIZED

Men Placed in Clerical Department by Draft Board to be Called to Assist Selective Boards.

SIX FROM HERE AVAILABLE

The six Rush county selectives, who, as clerks, have been placed in the limited service class will soon be called to assist in the clerical departments on the various draft boards in the state.

An order to the effect that all Indiana limited service men are to be utilized in the clerical departments of the district, state and county draft headquarters was issued today and intimation was made that the men are to be sent to Ft. Harrison in the early future and from that place will be distributed in various parts of the state wherever their services are needed.

Two hundred and fifty-one selectives in the state of Indiana are registered under the limited service department as clerks. The order from the state draft headquarters today asked for the number of available men from this department which Rush county will be able to furnish. The county's quota for the first call which will be issued soon has not been made known.

The Rush county draft board has placed six draftees in this section in limited service class. Those available for clerical work are Howard Stech, John Prazee, Daily Smith, Charles Schaefer, Vernice Burrows and Francis Coyne.

JONES STARTS TOMORROW

Local Trainer Does Not Race For Two Days After Win Monday

Harrie Jones, local trainer, did not have an entry in the state fair races today, but tomorrow will drive Corvus for the money in the 2:14 pace. Star Tramp was entered in the 2:18 trot yesterday, but did not start, according to the summaries. Mr. Jones did well, however, in his opening race at the state fair Monday when he took the 2:22 trot with Hallie Ermine, winning the second and third heats in 2:13 and 2:14.

John Dagler of Centerville, formerly of this city, won third money in the 2:18 trot yesterday with John Lackey.

METHODS TO PREVENT BEAN WEEVIL'S RAVAGING

Bean weevil is the principal enemy of beans and peas in storage, and may cause big losses of these crops for Indiana war gardeners, says F. C. Gaylord, of the Purdue University Extension staff, who has charge of the garden work. This pest which destroys large quantities of beans in storage may be controlled by heating in the oven or by the use of carbon bisulphide.

Heating the beans in an oven for one hour at a temperature of 140 to 150 degrees will destroy the weevil, but his method applies only to beans for food purposes as it kills the life germ and they will not grow, if planted next spring. Low temperatures cause the weevils to stop working, but will not kill them.

The best method is to place the beans in a tight vessel or box, and place a shallow vessel, such as plate or saucer on top of the beans. Then a small amount of carbon bisulphide is poured into the saucer or plate, the vessel or box closed tightly and left for 36 hours. Under summer temperatures, one ounce is needed for every 100 pounds of beans. In small quantities, about a tablespoonful may be used for each 10 to 15 pounds of beans which the war gardeners may wish to store.

"Carbon bisulphide has about the same effect on animal life as chlorine and is as explosive as gasoline," said Mr. Gaylord. "It must be handled with due regard to these qualities."
